SOUTH PARK AVENUE WEBSITE UP AND RUNNING
WWW.SOUTHPARKAVENUE.WEBS.COM

As the South Park Avenue Revitalization Project continues to take shape, Legislator Tim Kennedy recently unveiled the project's official website, located at www.southparkavenue.webs.com.

The website, which is updated regularly, affords residents the opportunity to access the latest developments pertaining to the South Park Avenue Revitalization Project from the convenience of their home computer. Once online, visitors can glance at photos of the committee at work and check out the new street lights, crosswalks, benches, trash receptacles and trees which will be placed along a rejuvenated South Park Avenue.

The website also features important information, including all of the meeting minutes to date, which are in PDF format and can be downloaded straight from the website. The "links" button connects visitors to various websites associated with the South Park project, including the websites of Sorrento, Re-Tree Western New York and NHS of South Buffalo. The "In the news" button takes visitors to articles highlighting the upcoming project and the "Avenue property" button gives individuals and realtors the ability to post properties for sale on South Park Avenue.

"I understand that people's lives are extremely busy," stated Kennedy. "The South Park Avenue website helps everyone stay connected to the project and is an attempt to make things a little easier for those who wanted to be at the meetings, but just could not find the time."

The website was designed by John Kennedy, Jr. and Jeff McGavis.

"It is vitally important for people to know what is going on in their neighborhood," added Kennedy. "I encourage everyone to check it out, make suggestions and get as involved in the upcoming project as possible!"
